

AT8800L Combustible Gas Detector

SMART SENSOR AT8800L combustible gas leak detector with visual leakage indicator, can detect gas leakage.

Detect hydrocarbons (methane, natural gas, ethane, propane, benzene, Acetylene, propane, Pentane, hexane, gas oil, toluene) and

halogenated hydrocarbons (methyl chloride, three chloride, vinyl chloride), alcohols (methanol, ethanol) etc.

Feature:

- Brand name SMART SENSOR
- Color: Red + Black
- Material: ABS Plastic
- Detection Gas: Combustible Gas
- Sensitivity: Variable, Minimum 50 PPM (methane)
- Alarm Mode: Sound alarm and light alarm
- Response Time: Instantaneous
- Warm-Up Time: < 20 Seconds
- Battery Type: 3 * AA 1.5V Alkaline Batteries
- Duty Cycle: 3 Years
- Response Time: Instantaneous
- Continuous Operation Time: 9 hours (slightly vary with working condition)
- Probe Length: 35.5cm
- Operating Temperature: 0~50°C, Relative Humidity 0~80%
- Storage Temperature: 10~60°C, Relative Humidity: 0~70%
- Item Size: Approx. 160 * 65 * 33mm (L x W x H)
